* Only work with REMOCON Rolling code remotes use H4 IC(such as RMC-275HS II, RMC-105HS II -2K & RMC-555HS II)

😊 With Seed code. So you have to input Seed Code first when learning.

★ Support "One button self-learning programing to the receiver"

No need to know how to program to receivers or open the case of receivers and can automatically program to the receiver by just pressing the 1st button for around 7~8 seconds
